PROFESSIONAL SUMMARY

Motivated and detail-oriented Software Developer and Full Stack Developer with a strong foundation in Java, web development, and modern software technologies. Experienced in building scalable web applications, integrating APIs, and developing AI-assisted solutions through academic projects and internships. Seeking an opportunity to contribute technical skills, problem-solving abilities, and a passion for continuous learning in a dynamic organization while growing as a software engineering professional.

EDUCATION

Panimalar Engineering College

B.Tech- Information Technology

GPA:8.34

2023 to 2027

Velankanni Matric.Hr.sec.School HSC

percentage:79.33%

2023

AREAS OF EXPERTISE

Programming Languages: Java, JavaScript, Python , C

Frontend Technologies: HTML5, CSS3, Bootstrap, React.js

Backend Technologies: Node.js

Databases & Cloud Platforms: MongoDB, SQL, Supabase

Application Development: Mobile Application Development, Cross-Platform Application Development, REST API Integration

Developer Tools & Platforms: Git, GitHub, Postman, VS Code, Figma ,AntiGravity

Core Computer Science Concepts: Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), DBMS, Operating Systems, Computer Networks, REST APIs

AI & Productivity Tools: Prompt Engineering, Generative AI Tools, AI-Assisted Development

Development Methodologies: Vibe Coding, Rapid Prototyping, Responsive Web Development, UI/UX Design

PROFESSIONAL EXPERIENCE

UI/UX Web Design Intern | INTERNPRO - July 2025 – August 2025

Designed responsive and user-friendly web interfaces following modern UI/UX principles. Created wireframes and prototypes to improve usability and enhance user experience. Collaborated with development teams to translate designs into functional web applications.

WordPress Development Intern | JB Soft Systems - May 2025 – June 2025

Developed and customized responsive WordPress websites based on project requirements. Optimized website functionality, performance, and responsiveness across multiple devices.

PROJECTS

E-Commerce Website with Payment Gateway

Tech Stack: HTML, CSS, JavaScript, Bootstrap, Supabase, MongoDB, Razorpay

Developed a full-stack e-commerce web application with user authentication, product management, and shopping cart functionality. Integrated Razorpay payment gateway for secure online transactions and designed a responsive user interface for seamless user experience.

MEDISCAN AI

Tech Stack: React.js, Node.js, Express.js, MongoDB, Python, TensorFlow, OpenCV, REST APIs

Developed an AI-powered web application for analyzing chest X-ray images and identifying potential lung disease patterns. Implemented secure authentication, image upload functionality, and AI model integration with a responsive and scalable architecture.

Cake Shop Website

Tech Stack: HTML, CSS, JavaScript, React.js, Node.js, MongoDB, Supabase

Developed a responsive web application for online cake ordering with product catalog, order management, and customer enquiry features. Implemented dynamic product listings, database integration, and an intuitive user interface to enhance customer experience.

ACHIEVEMENTS / CERTIFICATES

- Completed certifications in Java and Python through Infosys Springboard.
- Earned a Generative AI certification from Oracle University.
- Successfully completed internships in UI/UX Web Design and WordPress Development.
- Developed full-stack and AI-powered applications as part of academic and personal projects
